CUTS SOUGHT IN INCOME TAX RATES

Democrats Propose Reduction In Normal Levies On $15,000 or Less

SUGGESTED RATES

First $5,000 Would Pay Two Per Cent—Tax On Gasoline And Capital Stock Impost To Make up Loss

Washington, Sept. 23.—Reductions in the normal tax rates on individual incomes of $15,000 or less and a graduated tax of from 10 per cent. to 20 per cent. on the incomes of corporations in place of the suggested flat rate of 15 per cent. were proposed in amendments to the Republican Tax Revision bill offered today in the Senate by Senator Walsh, of Massachusetts and Gerry of Rhode Island, Democrats, on the Finance Committee.

To make up the $105,000,000 loss from the tax on individual incomes it was proposed that a tax of 1 cent a gallon on gasoline be imposed at the source and that the capital stock tax, yielding around $60,000,000 annually, be retained. The majority bill provides for repeal of this tax effective in 1922.

Under the Gerry amendment individual taxpayers whose net income is less than $5,000 would pay a normal rate of 2 per cent. instead of 4 per cent. on $4,000, as provided in the revised bill; taxpayers whose net income is between $5,000 and $10,000 would pay a normal tax of 4 per cent. on the excess over $5,000 instead of 8 per cent. on all over $4,000, and taxpayers whose net income is between $10,000 and $15,000 would pay a normal tax of 6 per cent. on the excess over $10.000, instead of 8 per cent. on the excess over $4,000.

Incomes in excess of $15,000 would pay at the rate of 8 per cent. on all over that amount, but, it was explained, they would receive the benefit of the lowered normal tax up to $15,000. The surtax rates as fixed by the Finance Committee would remain unchanged.

Under the corporation income tax amendment offered by Senator Walsh, the rate on the first $100 000 of corporation net income would be 10 per cent.; between $100,000 and $300,000, 15 per cent., and in excess of $300,000, 20 per cent.

"This schedule," said a joint statement issued by Senator Walsh and Gerry, "will reduce the tax on the net income of 195,000 corporations upon which the Republican majority bill increases the tax from 10 per cent. to 15 per cent., while it increases the tax on only about 4,000 corporations which have a net income of more than $300,000 each per year.

"The fairness and advantages to all corporations of this graduated corporation income tax, if the excess profits tax is to be abolished, are self-apparent. Experts in the Treasury inform us that this graduated income tax, which we propose in lieu of the excess profits tax and the flat 15 per cent. corporation income tax, will yield an amount substantially equal to that contained in the bill of the Republican majority.

"We believe our program is more equitable because it provides that corporations, like individuals of small incomes shall bear a less tax burden than those corporations with large incomes."

Discussing the proposed reductions in the normal income tax rate on individual incomes below $15,000, the statement said :

"This change will reduce materially the tax bills of over 3,000,000 taxpayers, in striking contrast with the republican plan of cutting In addition to lowering the surtax bracket, the high surtaxes from taxpayers whose income is over $66,000, which affects not more than 5,000 of the wealthiest class.

"The loss to the Government by our plan will amount to about $105,000,000 yet the Republican majority, with one fell swoop, have eliminated the excess profits taxes and thereby reduced the revenue of the Government $450,000,000. There should be no reduction of the substantial character proposed by the Republican majority leading to such tremendous reductions in the needed revenue of the Government in the interest of excessive profit-making corporations, without providing for a just and equitable reduction to the individual whose income is less than $15,000."

The statement by Senator Walsh and Gerry was concurred in, it was announced, by Senators Simmons, of North Carolina, and Reed, of Missouri, the other two minority members of the Finance Committee now in Washington. It made a general attack on the Tax Revision bill as reported yesterday by the Finance Committee, declaring the measure to be "unsound, inequitable and indefensible."

Richmond—Not only has the drought played havoc with Virginia crops in 1921, but unless the situation is soon relieved by copious showers the crop yield for 1922 will be considerably reduced, said J. J. Owen, assistant state commissioner of agriculture today. The seeding of crimson clover and the planting of rye and winter oats is already behind, said Mr. Owens, owing to the drought. Preparations for the wheat crop have been delayed. Turnips have not been planted. There is always a great deal of clover seded in corn, and this has perished due to the dryness, and the farmers fear to attempt reseeding until it rains. Mr. Owens declared that the ground is so hard that plowing is out of the question. The plow will not stick in the ground and even if it did horses and mules could not pull it. But even if plowing were possible seed would not sprout for lack of moisture.

TROLLEY LINE WANTS TO CUT SOME FARES

W.-Va. Company to Apply To I. C. C. For Right To Change

TO SELL 26 TRIP BOOKS

Monthly Books On Sale Any Time—To Establish New Freight Rates—Other Changes Sought

The Washington-Virginia Railway Company, which company several months ago was granted an increase in rates by the Interstate Commerce Commission shortly will make application to the same commission to permit a decrease in certain rates. This announcement is made by M. G. Stratton, general manager of the company .

The changes in rates will be filed with the Interstate Commerce Commission within the next eight or ten days it is stated and it is expected that a decision will be rendered by the commission within a month after application is filed. Whether or not the rates can be put into operation will, of course, be governed by the decision of the Interstate Commerce Commission.

The old rate on the trolley line was nineteen cents each way.

The proposed change of the trolley line will ask the Interstate Commission for permission to put into operation is that the fiftytwo trip book of tickets, known as the monthly book, will be put on sale any day and will be good for one month from date of purchase. This will also be true of the present forty-six trip book known as the school ticket. The company also proposes to institute a new twenty-six trip ticket which will be on sale any day, good for one person, and good for one month from the date of purchase and a rate of sixteen and one half per cent per trip above the present rate per trip of the fifty-two ticket, making the new rate 25 cents for round trip.

The company also proposes to change the time limitation of the present round trip ticket so that it will be good for five days from date of purchase instead of two days as now.

It is further announced that where extra charges have been made on tickets purchased by passengers who have boarded trains at stations where the ticket office is open, there will be a change so that these passengrs paying a fare on the cars will be charged a uniform additional price of five cents and will be given a rebate check by the conductor which will entitle them to a rebate of five cents at any ticket office on the system of the company. It is also reported to reduce the prevailing freight rate and milk rates, interstate, between Washington and Alexandria and Washington and Mt. Vernon to a basis approximately to what it was before the increase of 1920.

It is further proposed to establish a new freight rate between Washington and Fairfax by way of Rosslyn and Clarendon, daily excepting Sundays. At present, it is stated, the only service between Fairfax and the district terminates at Rosslyn. This it is declared will give shippers a daily service to Fairfax by way of Washington and a daily service to the the people of Falls Church division from the center of Washington instead of from Rosslyn.

The company so far as known, however, does not propose to cut the price of the round trip now forty-eight cents and the price of the fifty two trip book tickets will remain unchanged. The fifty two trip tickets formerly sold at $4.46 and are now $5.58. The prevailing rate for the twenty-five trip family ticket is now $4.20 against $2.75 formerly charged

BUT 10,716 OFFICES HELD IN VIRGINIA

Statement of Republicans That There Are 45,000 Officeholders

LIST JUST COMPILED

There Are 14,000 School Teachers In Virginia—Teachers And Notaries Not Included By Democrats

Richmond, Va., Sept. 23.—Whether under Democratic administrations, Virginia taxpayers have been burdened by an excessive number of officeholders is paramount at present in the state campaign. The charge made by Republican speakers is emphatically denied by Democrats.

Congressman H. D. Flood, chairman of the Democratic state committee, just made the following statement.

"The Republican candidate for governor in his speeches makes the statement that there are over 45,000 persons connected with or employed by the state and local governments of this commonwealth. The statement had before been deliberately embodied in the Republican platform adopted at Norfolk, and is being repeated by all of the orators the Republican party is sending through Virginia to slander and troduce the state and its people.

"I have made careful inquiry to ascertain what basis there is for these figures, but have been unable to get any facts or figures that could by any stretch of the imagination justify this exaggerated statement.

"The following is a list of officers connected with the state and local governments of the commonwealth:

Examiners of records	32
Judges	57
Officers and employes provided for in state budget and the various institutions	3 400
123 local boards of review, three members each	369
23 cities, average of twenty officers each	460
100 counties, average of ten officers each	1,000
450 magisterial district average seven officers	3,150
County and city treasurers	123
Clerks of courts	127
Commissioners of the revenue	230
School trustees	1,659
School superintendents	109
Examiners of clerks of courts accounts	125
Total	10,716

"There are less than one-fourth of the number of officers in Virginia claimed by Colonel Anderson.

"This claim is but a sample of the inaccuracy of this convert to Republicanism.

"Other statements and criticisms of the administration of the affairs of Virginia by the successive Democratic administration are even more inaccurate and misleading than this one,"

WASHINGTON DAY BY DAY

Washington, Sept. 23. — Senator Frank Willis, of Ohio, the man who nominated Warren G. Harding for President at the Republican National Convention held in Chicago last June, has been made to feel the Presidential sting. Senator Willis wanted his friend and political benchman, George Staffer, of Ottawa, Ohio, appointed collector of internal revenue at Toledo. President Harding ignored the wishes of Senator Willis and instead named Charles F. Nauts for the place. Nauts had the endorsement of Walter F. Brown, President Harding's personal representative on the commission to reorganize the various executive departments. When the name of Nauts was sent to the Senate, Willis declared by everything in his command that he would never be confirmed. But the President sent for Willis, the two had an hour's conference and Willis left the White House saying he had withdrawn his objection to Nauts. It is said that Willis has been promised "something equally as good."

Summoned to Explain Charges

Charles S. Lobingier, U. S. Judge of the Consular Court at Shanghai China, is in trouble with his home government. Serious charges have been preferred against Judge Lobingier and as a result he has been summoned from China to answer the accusations made against him. He is now in Washington preparing his case for submission to Attorney General Daugherty who was called upon by the State Department to make a thorough investigation and report into the matter. Among other things it is said that the Judge was unduly harsh with a certain lawyer who appeared before him, that Judge Lobingier sentenced the practitioner to six months in jail and to pay a fine of $10,000 for contempt of court when under the rules the sentence should have been for not more than thirty days with a fine of $1,000. When the lawyer served his jail sentence, he came to Washington and preferred charges against the judge with the officials of the State Department. The outcome of the investigation now under way by the Attorney General is awaited with interest. Judge Lobingier has been serving as Judge at Shanghai since February 9, 1914.

Meat Packers Case Pending

Whether the big meat packers of the country shall be compelled to observe the recent decree of the court separating them from any other business than that of meats and meat products will probably be determined at a hearing which will start at the Department of Justice within the next week. At this hearing, in addition to the legal department, there will be representatives of the Departments of Agriculture and Commerce, togegther with those from the Wholesale Grocers' Association and other interested parties. The fruit growers of California have made application for a modification of the court's decree so as to permit the use of the refrigerator cars now owned by the packers to transport fruit to Eastern cities. The fruit growers declare they have no interest whatever in the packers but are compelled to make use of their cold storage cars in order to get their products to market in saleable shape.

CHAMPIONSHIP GAME OF BALL

A Great Game to be Staged Sunday at the Dreadnaught Park.

After a great record of forty-two victories and three defeats for the season of 1921, aslo winning the championship of Alexandria and Northern Virginia, the Dreadnaughts will take on the Church Hill aggregation, who claim the championship of southern Virginia. The Dreadnaught A. C. sent a representative to Richmond to look over this aggregation and the report comes back that this club is one of the best in the State and if the Dreadnaughts expect to win they will have to hustle, and the gentleman representing the Dreadnaughts says it will be the best ball club that has ever visited Alexandria.

Chuch Hill is boasting of one of the best sandlot pitches in the country, Herbert Harrelson, who has won most every game he has pitched this season and also has had some promising offers to join the big league, but on account of finishing his college course he has decline the offer. This club is considered the best of 63 sandlot teams who are now playing in Richmond. Dr. Parker, well known to all the basball fans in this section, is head of this great ball club, and he predicts a verdict for the Richmond aggregation.

The coaches of the Dreadnaughts are banking on their ace, Frye, who has been pitching great ball for the Dreadnaughts this season, having but one defeat chalked against him, and he also has a great record of 25 victories, a record which any pitcher should be proud of. Burhly, will be seen on the third cushion in this game while the rest of the team will be intact. Don't forget to come out and look this ball club over.

GERMAN TOLL IS 1,100 DEAD 4,000 HURT

Cries of Wounded Still Greet Rescuers Working In The Mine Ruins

FRENCH LEAD RESCUE

General Exodus From Nearby Towns Which Were Partially Wrecked—Big Explosion

Mannheim, Germany, Sept. 23.—Desolation and ruins alone remain of what was once the flourishing town of Oppau, The town had 6,500 residences, of which a majority of the men engaged in the chemical works were killed or wounded. Soldiers in French uniforms are clearing away the wreckage, picking up the dead and injured as after a big battle.

Eleven hundred dead and 4,000 injured is the latest estimate of the disaster yesterday which caused a greater number of casualties in the Mannheim Ludwigshafen district than the four years of the war. The desolation around Oppau equals anything seen at Verdun or in Flanders over a similar area. Hundreds of persons are digging in the ruins for the bodies of relatives or friends, nearly a thousand of which have been recovered thus far.

Thirty-six hours after the explosion from the gaping, funnel like hole where the Badische works formerly stood, there are still to be heard moaning and cries of the wounded, while the soldiers search for possible survivors. Twenty-five hundred of the injured are reported to have passed through the hospitals of the surrounding cities.

The vast crater is slowly filling with water and it may never be known how many victims found a grave there. All mutilated, but still living animals crawling amid the twisted girders and blocks of concrete are being put out of their misery. The firemen and relief workers have not yet been able to discard their gas masks.

The Thirty second Army Corps of the French Army is in complete charge of the area, and every available French medical officer had arrived early this morning to cooperate with the German physicians and surgeons. The French and German Red Cross are cooperating, and a big German sanitary train has brought large quantities of medical supplies.

From Frankenthal, four miles away, was a steady exodus of the population in which bandanged heads and arms in slings were conspicuous. The village of Edigheim was badly wrecked and it has not yet been possible to rescue some of the victims who are known to be under the debris.

At Oppau whole families were completely wiped out, about three hundred bodies having already been placed in the adjoining cemetery awaiting burial. The Mannheim hospitals are crowded with injured, more than 400 persons having suffered from the explosion in this city

Severa French soldiers were killed and many wounded when the force of the Oppau explosion wrecked the French barracks at Eisenheim. A train which had just left the station was blown off the tracks, plowing through the wooden sheds where French soldiers of occupation were quartered.

The experts who are inquiring into the cause said that the explosion probably occurred in the course of tests of the compression of a new gas, the properties of which were insufficiently known.

AN INIQUITOUS BILL

Class legislation, as it is termed, is repugnant to the American people. To legislate in favor of the few as opposed to the many is fundamentally undemocratic doctrine. There is a certain bill now before Congress, known as the Fordney Bill, which it would seem, is essentially class legislation of the most aggravated type. It is ostensibly a tax measure, but is in reality designed to destroy the manufacture and sale of the by-products of milk by the placing of drastic license fees, penalties and fines, excessive surety bonds, stamp taxes, and obnoxious signs placed in conspicuous positions, and other measures that are almost prohibitive.

The fact is that the use and manufacture of compounds of skimmed milk, which have come into existence during the past few years, have enabled the farmers and dairymen to dispose of millions of gallons of an article that previously was numbered among the great mass of waste products which the inventive genius of man had not hitherto been able to utilize commercially. Both the state and federal pure food authorities have endorsed as an entirely legitimate and wholesome practice the combination of skimmed milk with vegetable fats into milk compounds designed exclusively for cooking purposes, and not in anywise for beverage, table or infants' milk.

The fact is that Congressman Fordney represents a district, and in a measure a state, that manufactures certain food articles made from milk. These manufacturers, who have already amassed huge fortunes mounting into the millions, have waxed fat in an unholy greed, and now seek to throttle competition by national legislation.

As was to be expected a warm fight was precipitated in Congress, and Congressman Fordney's iniquitous bill did not achieve its passage. But it, as well as other kindred measures now lying dormant in committee, will be brought up again at the present session, and the fight will be on again.

We hope that they will meet with the stinging defeat they deserve. It is high time that a certain class of pampered manufacturers discovered that the United States congress is not designed to stifle legitimate competition or to enrich a few favorites at the expense of the people.

WORLD WAR VETERANS' REUNION DAY

Thursday, September 29th has been designed as World War Veteran's Reunion Day at the Fairfax County Fair. The men of Fairfax County who were in the military or naval service of the United States during the World War will be the guests of the Fair Association on that date. They will be admitted to the grounds free and lunch will be served. Addresses will be made by Hon. R. Walton Moore and others. There will be dancing in the afternoon and evening. Wearing of uniforms is preferred but that has been left to each man to decide for himself. It is hoped that a large number of ex-service men will take advantage of this reunion and make it one of the big events of the Fair.

Calomel Dying Fast In South

"Dodson's Liver Tone" is Taking the Place of Dangerous Sickening Drug

You're bilious, sluggish, constipated and believe you need vile, dangerous calomel to start your liver and clean your bowels.

Here's Dodson's guarantee! Ask your druggist for a bottle of Dodson's Liver Tone and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate so let them eat anything after wards.

That all-softening,
overpowering knell,
The tocsin of the soul--
the dinner bell.

Much Suffering Caused by Waste Products in the Blood

What Science Knows About the Matter and How It Is Best Treated.

The blood is more important than any of the organs. It is thru the blood that the whole human body is directly or indirectly nourished. The blood gets its nourishment from the intestines. The intestines also contain waste products — undigested foods, acids, gases and refuse, which sometimes get in the blood.

When waste products get in the blood, nature will strive to cast them out. If your resistance is strong enough, nature will probably succeed. But if you are "below par," weak, run-down, and nervous, nature will begin to show signs of distress,

As a result, you will have that feeling of fatigue. You will lack the energy you need for the day's duties and pleasure. Minor ailments will begin to affect you—pimples, blackheads, and boils.

If the waste products are not gotten out of the blood at this point, it is possible a more serious skin eruption or disease will begin to show itself. It is not infrequent for waste products to settle in the muscles and joints and cause rheumatism.

Listen to nature's warning. Your blood is your fountain source of energy—therefore keep your blood rich and pure.

For over 50 years, thousands and thousands of men and women have relied on S. S. S. to clear their blood of waste products. S. S. S. will improve the quality of your blood by relieving you of the waste products which cause impoverished blood and its allied troubles—skin disorders, rheumatism and a lowered vitality.

Get S. S. S. at your druggist. Beware of substitutes. Write Chief Medical Director, Swift Specific Co., D-720 S. S. S. Laboratory, Atlanta, Ga. for special medical advice (without charge). He is helping people every day to regain their health and strength. Ask him to send you his illustrated booklet, *"Facts About the Blood"*—free. S. S. S. is sold by all drug stores.

Washington City, Sept. 21.

Copy of a letter from Isaac Hull, esq., Commanding Naval Officer on the station East of Portsmouth, N. H.

U. S. Navy Yard Portsmouth
14th Sept. 1813

SIR,

I have the honor to forward you, by the mail, the Flags of the late British brig. Boxer, which were nailed to her mast-heads at the time she engaged and, was captured by the U. S. brig. Enterprize.

Great as the pleasure is that I derive from performing this part of my duty, I need not tell you how different my feelings would have been, could the gallant Burrows have had this honor!

He went into action most gallantly, and the difference of injury done the two vessels proves how nobly he fought.

I have the honor to be, with great respect, sir, your obedient servant

Kidney and Bladder Troubles HAVE TO GO

Clogged up Kidneys Deposits are Dissolved and the Toxins (Poisons) Completely Driven Out. Druggists Told to Guarantee it in Every Instance.

"Your very life," says Dr. Carey, "depends upon the perfect functioning and health of your kidneys so whatever you do don't neglect them."

Dr. Carey's famous prescription No. 777 known as Marshroot is not recommended for everything, but we cannot too strongly urge its use if you suffer from annoying bladder troubles, frequent passing of water night and day ,with smarting or irritation, brick dust sediment or highly colored urine, bloating irritability with loss of flesh, backache, rheumatism or any other tendency to Bright's Disease, Diabetis or Gravel, for kidney disease in its worst form may be stealing upon you.

Don't wait until to-morrow to begin the use of this wonderful prescription if you have any of the above symptoms, Kidney and Bladder troubles don't wear away. They will grow upon you slowly, stealthily and with unfailing certainty.

Never mind the failures of the past if you even suspect that you are subject to Kidney Disease, don't lose a single day for—every good druggist has been authorized to return the purchase money on the first two bottles

If the Lights Should Go Out

Did you ever stop and consider for a moment what this city would be like if all electrical current were turned off.

The stores, the houses and the churches would go dark. There'd be no lights on the corners, no elevators in the buildings, no street cars, no telephones—not even a movie show.

Kerosene lamps would come back into use, and your wife would bend over a wash tub and sweep with a broom .

Electric current is one of the cheapest necessities you can buy today. In proportion to the comfort and convenience it gives, electricity is worth many times what you pay for it. And it helps, in a large way, to make our city a prosperous and desirable place in which to live.

"Purina" Made the Difference!

EQUAL in laying ability. But the hen on the right was fed a common grain ration while the other was fed Purina Chicken Chowder and Purina Hen Chow. Grains have lots of material for yolks, but far too little for whites. As they can't lay yolks only, grain-fed hens lay fewer eggs.

Purina Poultry Chows
form a complete ration, containing material for an equal number of whites and yolks. They get the most out of your hens, and cut the feeding cost per dozen eggs.

More-Eggs Guarantee
You get your money back if Purina Chicken Chowder and Purina Hen Chow, fed as directed, don't produce more eggs than any other ration. Why should you put off a trial when we take the risk?

GIRLS! BLEACH SKIN WHITE WITH LEMON

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a quarter pint of harmless and delightful lemon bleach. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day, then shortly note the beauty and whiteness of your skin.

Famous stage beauties use this lemon lotion to bleach and bring that soft, clear, rosy white complexion, also as a freckle, sunburn, and tan bleach because it doesn't irritate

RICHMOND THEATRE

Joseph M. Schenck presents

Honestly--a masterpiece of screen production!

From Channing Pollock's play.
Directed by Herbert Brenon

She flung open the door. There stood her husband over the man to whom she had made a plea. As yet he had not seen her, but he would—and learn the things she had hidden from him in marriage.

Her husband had come to avenge a friend. What would he do when he found her there, too?
